

CATELLANI t.f.e.

tecno forniture elettriche

CANopen DeviceNet

Moduli I/O wireless

Stazione base Wireless I/O

Stazione Fieldline Modular

Installazione decentrata
 I moduli Fieldline Modular Wireless I/O possono essere montati direttamente nella macchina o nell'impianto. Il cablaggio di "ultimo metro" o sensori e attuatori viene effettuato in modo conven-

zionale o statico, ad esempio, attraverso connettori M12 preconfezionati.

ALL OUR ELECTRICITY , AT YOUR SERVICE....

www.catellani.net

Rockwell Automation

Contactors ó Soft Starters ó Electronic Thermal Relays MCS ó Sensors ó Photocells ó Push Buttons (iron ó plastic) ó Tower lights ó Safety control relays - PLC ó Inverter and programming software ó Breakers and switches - Power supplies

GUARD MASTER Safety Interlock switches TROJAN - TITAN - CADET ó ELF ó Safety relays ó Presence sensing safety devices ó Emergency STOP, trip and enabling switches ó Prosafe trapped key interlock systems - Power control - Safety logic controllers.

SIEMENS

Contactors 3RT ó Motor protections 3RV ó Electrical motors ó Push buttons 3SB3500 ó PLC SIMATIC ó Breakers 5SY .

Screw terminals ó Spring-cage terminals ó Fast terminals - Sensor actuator cabling ó Safety relays ó Power supplies ó Signal converters interface: digital/analog, current, voltage, temperature - Component housing ó Profibus connectors ó Mini-relays 6 mm ó Solid state relays - Wireless.

Switches ó Commutators ó Push buttons ó Breakers - Push buttons housing - Customer applications switches

Timer ó Solid state relays ó Counter-devices ó Micro-switches - Fan - Micro-PLC - Micro motors - Brushless

LAPPKABEL

Press-cables Skintop and accessories.

Signaling: horns and lights

Electrical motors: 0,18 kW up to 315 kW (2,4,6,8,10 poles), 230/400 Volts - Class F - EFF2, B3,B5,B14,B34,B35

Converters - Data acquisition - Wireless - Panel operator interface - Digital instruments - I/O Modules - Systems dosing.

Cable ties - Metal tooth cable ties - Special cable ties -

Modular cabinets - Monolithic cabinets - Steel Cabinets IP 65 ó Polycarbonate cabinets -

Modular cabinets - Monolithic cabinets - PC enclosures ó Wall mounting enclosures - Control desks - Stainless steel solutions - Rack solutions - Customizations.

SONTHEIMER Switches - Commutator - Costumer requirements switches: special drawings

Fuses ó Fuses **UL CSA** - Fuses housing

Crimping terminals ó Clamps cables lugs ó Cable-glands - Cable-ties

Connectors ó Alluminium Terminal blocks ó Connector/housing.

Filters and fan group IP 54 of all dimensions ó Fan on bearings.

Printers for cables, terminals and devices: adapts to any plotter on market like **Roland, Houston, Graftech, Mutho** etc....

Oil resistant cable - fixed and mobile laid - shielded or not - power or data transmission - Profibus, DeviceNet, Ethernet, Modbus - cables for Drives, Encoders, Resolvers - AWG etc...

Trasformers and auto-trasformers mono-phase, tri-phase ó costumers solutions - Made in accordante **UL CSA**.

Boxes with transparent door - Compact cabinets, modular cabinets, computer cabinets, slope top cabinets in INOX standard Aisi 304 and special in INOX Aisi 316L - Push button panels and brach boxes.

STANDARD CABLES — SPECIAL CABLES

We produce cables for brushless motor applications of any brand: **SEW, DANAHER, CONTROL TECNIQUE, OMRON, ELAU, SIEMENS, KEB, BOSH...** etc, etc, - Encoder, resolver cables - Cables for **PLC Siemens S7 300** - Customers requirements cables for any applications in fixed or mobile laid.
